

INTENSE LIGHTING - LEVITON APPLICATIONS

intense[®] | a LEVITON[®]
LIGHTING | company

The brochure features a central image of a recessed ceiling light fixture with a beam of light. To the right, the text reads: **Dynamic Optical Control**. Below this, it states: "The 100 Series with Dynamic Optical Control beam adjusters are designed with user-friendly controls to provide complete environmental control. The optical technology provides wireless optical adjustment from open to closed and instantly control user-defined beam angles." Further down, it lists: **Dynamic Optical Technology** (light beam imaging from open to closed via Bluetooth control app), **Wireless Dimming** (with three options: dim down to 10%, 20%, or 30%), and **Smart Control Hub** (user-adjustable beam and preset profiles). A Bluetooth icon and a smartphone displaying a control interface with a 50% dimmer are shown. At the bottom, three product variants are listed: **100 Series** (recessed), **100 Series** (surface mount), and **100 Series** (flush mount). The Intense Lighting logo and website URL are at the bottom.

The image shows three overlapping smartphone screens displaying the Intense Lighting mobile application. The top screen shows the "intense LIGHTING" logo and a dimmer slider set to 50%. The middle screen shows a dimmer slider set to 10%. The bottom screen shows a settings menu with options like "Dimmer", "Beam", and "Profile". The Leviton logo is visible in the top right corner of the overall graphic.

INTENSE LIGHTING - LEVITON APPLICATIONS

PROJECT BRIEF

UNIQUE VALUE PROPOSITION

An app was needed to adjust the brightness and angle of the lighting cone. The devices also needed to be grouped and managed by location. The app stores this information in the cloud and feeds it to the app.

OBJECTIVES

BUSINESS OBJECTIVES

- » Available on iTunes and Google Play
- » Allow quick setup for retail stores

DESIGN OBJECTIVES

- » Should be nimble and minimize inherent BLE latency
- » Function should approximate BLE mesh

AUDIENCE

The target audience for the app is retail and hospitality employees who are using the lighting in high-end stores and restaurants. The process of connecting to a Bluetooth light should be hidden and the UI should promote direct manipulation of the lights.

PROJECT SCOPE

UX

- » Product Owner interviews
- » Userflows
- » Information Architecture

UI

- » Sketching
- » Wireframes
- » Prototypes
- » Beta testing and refinement

VISUAL DESIGN

- » Theme will be subtle and clean
- » Should incorporate existing Leviton, Inc brand elements

INTENSE LIGHTING - LEVITON APPLICATIONS

DESCRIPTION

Mobile App to control Bluetooth Lighting

BCBSLA - GROUP ENROLLMENT TOOL

PROJECT BRIEF

UNIQUE VALUE PROPOSITION

The group enrollment tool will give agents and group enrollment specialists a single site from which to enroll and manage insured groups and group members.

OBJECTIVES

BUSINESS OBJECTIVES

- » Aggressive timeline
- » Must replace existing system
- » MVP needs to be 100% functional

DESIGN OBJECTIVES

- » Responsive design
- » Bootstrap based design
- » Tablet and Desktop Form Factors

AUDIENCE

The target audience for the portal is Insurance Group Managers. These are primarily HR professionals who manage a company's employee benefits. Other users include Blue Cross Blue Shield agents and independent agents.

PROJECT SCOPE

UX

- » Domain Experts on Team
- » Use Cases and Personas created in Sprint 0
- » User Interviews and Feedback and demos

UI

- » Sketching
- » Wireframes
- » Prototypes

VISUAL DESIGN

- » Modified Bootstrap Theme
- » Brand Guidance provided by Marketing Dept

WEB DEVELOPMENT

- » ASP/ Visual Studio
- » Dedicated Agile Team
- » Bootstrap CSS
- » Scrum using Microsoft Team Foundation Server (TFS)

BCBSLA - GROUP ENROLLMENT TOOL

DESCRIPTION

Web Portal built in ASP.NET with Bootstrap Theme

MY ROLE

Created concept, wireframes, IA, art assets & icons, branding for enterprise application, marketing material

TOOLS

CALIFORNIA COSTUMES ORDERING SYSTEM

The screenshot shows the California Costumes website in a browser window. The URL is <http://californiacostumes.com/>. The page features a navigation bar with links for PRODUCTS, LICENSES, SIZE CHARTS, MULTIMEDIA, and NEWS & INFO. A main banner for 'PUP-A-RAZZI' displays three dogs in costumes: a Boston Terrier with a red headscarf and fruit, a pug with a colorful wig, and a dog in a papal outfit. Below the banner is a 'FEATURED PRODUCTS' section with four items, each labeled 'ITEM NAME' and 'ITEM #12345'. The bottom of the page includes promotional text: '2013 CATALOGS ARE AVAILABLE!' and 'STAY IN TOUCH.' with images of catalog covers.

CALIFORNIA COSTUMES ORDERING SYSTEM

PROJECT BRIEF

UNIQUE VALUE PROPOSITION

By upgrading the CMS version of the public web site, CaliforniaCostumes.com, it's role can be advanced from that of a brochure to that of interactive selling resources. Moving from the current Drupal v5 to Drupal v7 will also mean that essential maintenance and feature enhancements can continue without the breaking the site and disrupting service.

OBJECTIVES

BUSINESS OBJECTIVES

- » Move site to new host
- » Site Managed In-House
- » Customers Have Accounts
- » Customers Order Online

DESIGN OBJECTIVES

- » Fast loading
- » Branded Theme
- » Responsive

AUDIENCE

The site is B2B but is also the primary marketing piece to the general public. Customers who use the site are small to mid size retailers, both seasonal and year round. The general public and potential customers also browse the site for interesting products and ideas.

ADDITIONAL INFORMATION

Has the potential to become a high traffic portal for all things Halloween.

PROJECT SCOPE

USER EXPERIENCE (UX)

- » Stakeholder Interviews
- » Usability Testing
- » Personas
- » Information Architecture

USER INTERFACE (UI)

- » Sketching
- » Wireframes
- » Paper Prototype
- » HTML Prototype

VISUAL DESIGN

- » Drupal Theme
- » Static Art
- » Spot Art Assets
- » Interface Color Scheme

PERSONAS

These personas represent reliable and realistic segments of the key audience for reference. They help to focus decisions surrounding site components by adding a layer of real-world consideration to the conversation. They also offer a quick and inexpensive way to test and prioritize those features throughout the development process.

Sal DeFazio

Longtime Halloween Store Owner

Sal DeFazio
59 years old

Owner of Three Halloween Stores
Selects, Buys, and Markets Merchandise
High School Graduate

Married with 3 Adult Children- Wife works with him

Quote:

I've been doin' this since before you were born. I know what I want, how much I need, and where to get it.

Environment:

Works from the main store location. Has a desktop computer that runs Windows XP. Feels comfortable on the web. Uses eBay to sell things as well.

Key Attributes:

Deep knowledge of the industry and it's players. Goes to all of the shows. Is on top of all the industry news.

Maria Navarro

Long Time Buyer

Maria Navarro
43 years old

Buyer for Small Chain of Stores
Selects and Places orders for stores
College Educated

Married with teenage daughter

Quote:

I love to browse the new catalog and see all of the wonderfully creative costumes. I have system for ordering but I starting to dread all the post it notes, notepads, and white out!

Environment:

Works from a home office or at the store. Is comfortable with laptop and peripherals but does not want to handle too much gear. Average computer user who tends to shy away from new approaches and technology.

Key Attributes:

Is inquisitive but pragmatic. Needs to get a lot of different things done and doesn't have much time or energy to waste.

Kristy Renfield

Assistant Corporate Buyer

Kristy Renfield
27 years old

Works for a Large Party Cahin
Assists in selecting and placing orders
Some Post Secondary Courses

Single, Enthusiastic, Eager

Quote:

I'm having a lot of fun working in this industry. It's so unique and none of my friends are doing anything this fun.

If I had a complaint it would be that the industry seems a little dusty. Companies aren't reaching out to me and my peers as much as they could.

Environment:

Works in a corporate office on the East Coast. Has relatively modern tools with current software. Uses web applications for most of the internal project management and a good deal of the outside resource management.

Key Attributes:

New to the industry. Has a lot to learn but is eager to absorb it all. Goes to sales meetings and shows. Pushes for continuous organizational innovation.

MY LEVITON - SMART HOME (IOT) PRODUCT & APP

Products Partners Support Log In

Take control of your home

Decora Smart Wi-Fi Features

- Control your lights from anywhere using the free Leviton app for iOS and Android, no hub required.
- Simply say, 'Alexa, turn all lights off' at the end of the night, or 'Alexa, turn the floor fan on'. You can also add Google Home to turn on, off, dim or brighten; 'Ok Google, turn [Everything] On'.
- Five Year Limited Warranty and over 110 years of experience. Leviton stands behind our high-quality advanced solutions.
- Switches, Dimmers, and Plug-In Modules are Universal and work with your LED, CFL, and Incandescent lamps plus more!
- Simplify control of your home - schedule lights and connected loads to turn on/off at specific times or based on sunrise/sunset, easily group your smart devices into rooms, and create scenes to activate multiple lights at once.
- Support for multi-way applications, such as hallways or staircases, in which one fixture is controlled by two devices. Common color change kits and screwless wallplates round out the offering.

About Us Contact us Terms Privacy Leviton.com Partners

App Version: 2.1.16 - android

MY LEVITON - SMART HOME (IOT) PRODUCT & APP

PROJECT BRIEF

UNIQUE VALUE PROPOSITION

Leviton wanted to enter the smart home market and replace aging home automation offerings. With the 'My Leviton' app and cloud-based ecosystem they would be able to grow, enhance, and refine products and services.

OBJECTIVES

BUSINESS OBJECTIVES

- » Should work with Alexa and Google Assistant voice assistants
- » Allow control of home from anywhere via My Leviton app
- » Introduce existing user base to new smart home switches and dimmers

DESIGN OBJECTIVES

- » Must complement existing brand elements
- » Must be responsive CSS and work on iOS, Android, and Desktop
- » Must be easy to use and explain

AUDIENCE

The audience for the app and Wi-Fi dimmer is tech savvy, early adopters. They trust tech and enjoy having the latest digital products and experiences. Should be comfortable with home improvement projects but are not actual 'electricians'.

ADDITIONAL INFORMATION

Initial device enrollment will be difficult but the right balance of instruction and graphics in onboarding will go help ease the process. Working closely with firmware developers and cloud architects, as well, will make for a better experience.

PROJECT SCOPE

UX

- » Designed user flows and wireframes
- » Designed Visual Theme
- » Designed onboarding screens and coachmaksl
- » Continually improve site based on user reviews and analytics

UI

- » Designed icon and UI assets
- » Created Prototypes using InVision, Adobe XD

VISUAL DESIGN

- » Created new brand elements and theme for app
- » Created 'My Leviton' Logo
- » Designed 'My Leviton' microsite <https://my.leviton.com/home>

WEB DEVELOPMENT

- » ionic Framework
- » AngularJS
- » Google Analytics

WIREFRAMES & USERFLOWS

Features are discussed and designed in design sessions before being wireframed out, given a visual treatment, and broken into User Stories for an Agile Development team to construct,

The Leviton Decora Smart Dimmer and mobile device with My Leviton App.

MY LEVITON - SMART HOME (IOT) PRODUCT & APP

INNOVATION

Once the My Leviton ecosystem was in place it allowed for new products and partnerships. The Leviton Decora Smart Voice Dimmer uses mics, speakers, and Amazon's Alexa service for a unique product .

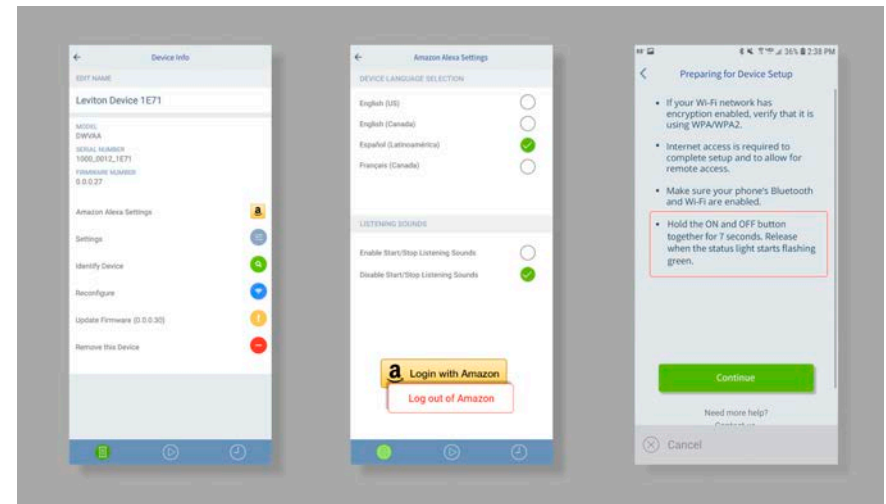

Audio Indication States

State	Audio Feedback
Device Verification Code	Tone triggered by the user via the app during setup to verify device selection. Will match Google Home.
WiFi Connection Success/Error	Tone triggered by the device after successful/failure to connect to WiFi. Will match Google Home.
Cast Connection Success	Tone triggered when the user connects to the device for casting. Will match Google Home.
Alarm Triggering	Alarm must have a different sound than the timer. Will match Google Home.
Timer Ringing	Timer must have a different sound than the alarm. Will match Google Home.
Holders Trigger & Ending	Integrated in the Assistant. Off by default. Will match Google Home.
Mic Muted	Integrated in the Assistant. Required for accessibility support. Will match Google Home.
Mic Unmuted	Integrated in the Assistant. Required for accessibility support. Will match Google Home.

Detailed UX documentation was created with firmware engineers

INNOVATION

Once the My Leviton ecosystem was in place it allowed for new products and partnerships. The Leviton Decora Smart Voice Dimmer uses mics, speakers, and Amazon's Alexa service for a unique product .

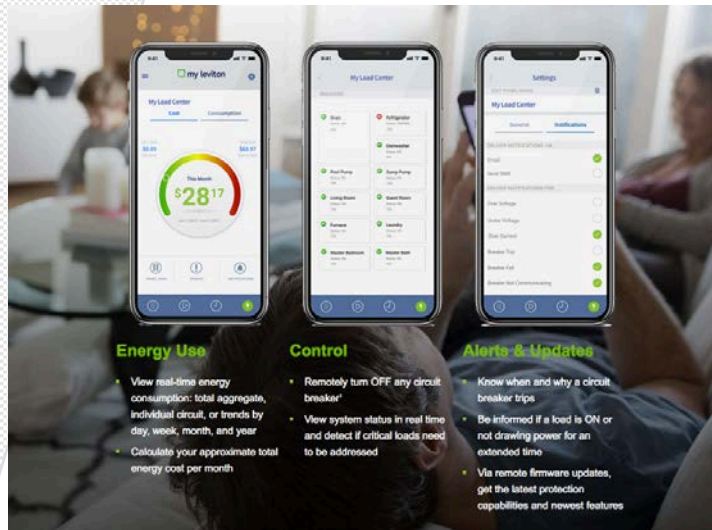

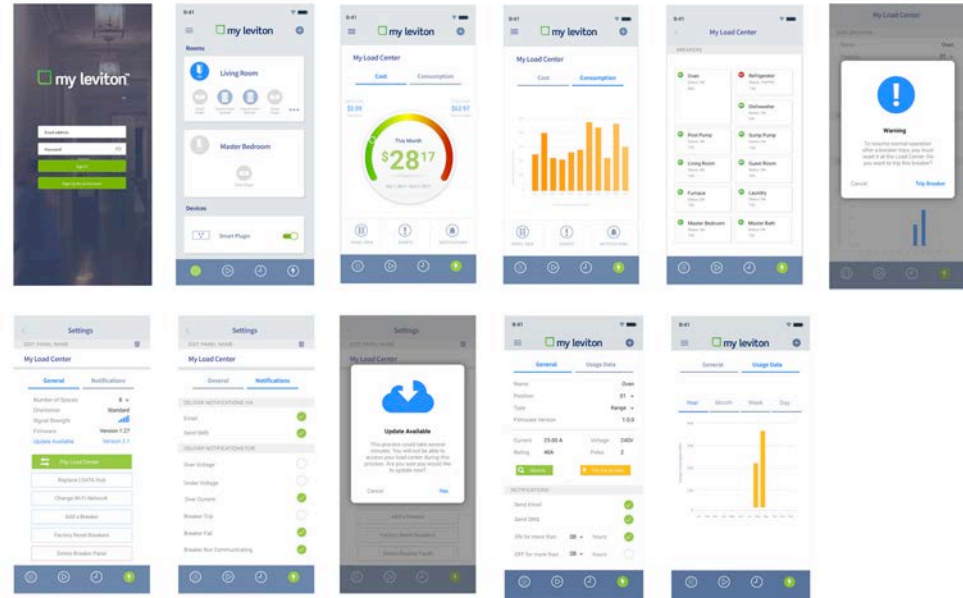

MY LEVITON - SMART HOME (IOT) PRODUCT & APP

INNOVATION

The Leviton Smart Load Center fits into the My Leviton ecosystem. Though not required, the IoT load center offers a wide range of possibilities for home energy management.

[HTTPS://WWW.LEVITON.COM/EN/PRODUCTS/RESIDENTIAL/LOAD-CENTERS/THE-LEVITON-SMART-LOAD-CENTER](https://www.leviton.com/en/products/residential/load-centers/the-leviton-smart-load-center)

'SCREEE -MACHINE' MOBILE APP

SCREEE MACHINE

'SCREEE -MACHINE' MOBILE APP

PROJECT BRIEF

UNIQUE VALUE PROPOSITION

The hugely successful "Ani-Motion" Masks have consumers requesting sound effects like the video productions they see on our YouTube channel. The most directly distributable and measurable method is via a mobile app. With sounds available for each mask and the app available for free, the Screee-Machine is a valuable bonus and direct response to customer requests.

OBJECTIVES

BUSINESS OBJECTIVES

- » Available for iPhone
- » Available for Android
- » All work to be done In-House
- » Analytics

DESIGN OBJECTIVES

- » Easy to use while in costume
- » Easy to use repeated times
- » Fast loading
- » Branded

AUDIENCE

The target audience for the app is males 8-18 years of age. They are tech savvy, creative, and eager to share. They are comfortable posting online and will go to great lengths to showcase their knowledge and creativity.

ADDITIONAL INFORMATION

ScreeeMachine is a complement to an existing product. It is not an end-to-end product design, as typical Halloween products are, but a collaborative tool for an audience that desires customization.

PROJECT SCOPE

UX

- » Stakeholder Interviews
- » Guerilla Usability Testing
- » Ideation Workshops
- » Task Models
- » Personas
- » Information Architecture

UI

- » Sketching
- » Wireframes
- » Prototypes

VISUAL DESIGN

- » Application Icon
- » Sound Icons
- » Interface Color Scheme
- » ScreeeMachine Logo

Personas

These personas represent reliable and realistic segments of the key audience for reference. They help to focus decisions surrounding site components by adding a layer of real-world consideration to the conversation. They also offer a quick and inexpensive way to test and prioritize those features throughout the development process.

Dustin

Film Buff

Dustin, 21 years old

- * Has been writing his own horror film
- * Reads up on prop making
- * Has strong opinions of and a high regard for the history of horror films
- * Attends local Junior College

Quote:

These masks are pretty cool. They're the only ones that move with your face. So that's cool...

Environment:

Dustin and his friends create short horror films that allow them to showcase their skills. They post them on YouTube and Vimeo and have tens of thousands of viewers.

Key Attributes:

His enthusiasm for the genre make him an ideal target audience. In essence, he is an organizer of the community.

Wendy

Product Manager

Wendy, 26 years old

- * Loves dressing up/ costuming
- * Attends themed events often, once or twice a month
- * Loves dressing up/ costuming
- * Self-Described 'Geek'

Quote:

We do Zombie flash mobs and all sorts of pub crawls. It's a fun way to meet people. It's always a blast.

Environment:

Has a lot of friends that costume and party. The membership of the groups fluctuates and is ad hoc. Though not a competitive bunch there is a desire for novelty and the members try to surprise each other with fun creations.

Key Attributes:

Loves expressing herself. Has a lot of fun getting together with friends preparing for the various events.

Stephan

High School Student

Stephan, 15 years old

- * High School Student
- * Single
- * Enthusiastic / Eager to Learn
- * Is active on forums and social sites dedicated to organic growing

Quote:

These masks are awesome. I only wish they made a sound. They'd probably cost too much if they did, though. Maybe I can make something on my own.

Environment:

Gadget expert. He has a blog and can always be counted on to have the latest mobile devices. Loves sci-fi and tech. Everybody knows this.

Key Attributes:

In his school Stephan is the gadget 'thought leader'.

'SCREEE -MACHINE' MOBILE APP

MARKETING

To notify customers of the app, an Email blast and landing page were created. In addition, I demonstrated the app at the annual Halloween & Party Expo. For the demo I wore a mask and hid a bluetooth speaker that was paired with an Android phone. The effect was frightening and unexpected.
